# BEING A TYNDALIAN

At Tyndale we actively encourage every person to belong rather than attend, to become a part of the community and a part of the family.

One of the main choices we face in life is whether we will be spectators or participants, and this is no different when it comes to schooling – for parents, staff and students.

As you look through this report, we trust that you will not just see the results, but that you will also get a glimpse as to the heart of the place, and the true community we strive to be.

**Core purpose:** To provide an excellent, inclusive Christian education that equips our students to serve God and His world.

**Vision:** To be a Christian community that fosters innovation and excellence in its programmes for the academic, vocational and physical development of students; nurtures spiritual and emotional growth and prepares students to move into life beyond the School, confident and competent in their chosen field, and with an understanding of their spiritual and social responsibilities to the local, national and international communities to which they belong.

**Mission:** To identify, encourage and develop the potential in each child through: effective selection, training and retention of staff to develop and deliver a balanced, best-practice programme of learning which is integrated throughout the student's time at the School; and building a community based on relationship with God and each other where the character of Christ is valued, developed and displayed.
